An exciting range of dynamic play products from Russell Play. Developed to encourage extreme climbing through a contemporary design.

Play points are designed for 8-16 year olds to help children discover and develop their physical limits. The new range contains both impressively high static structures as well as carefully engineered robust ropes and twisting climbing elements. The design concept has been based around encouraging lateral, non-prescriptive play: start where you like, go where you like.

Carefully developed and selected tactile powder coats achieving Silver Sparkle, Blue Sable and Orange Ripple paint finish.
